

THE GRAPHIC IDENTITY  
GUIDELINES  
OF EPILOG L.T.D.

SUMMARY FOR THE MEDIA

## Colours

### Primary and Secondary Colours

Colour is one of the most efficient elements ensuring the clear, consistent and sustainable presentation of Epilog's brand. Epilog's logo must never be reproduced in any other colour than the specified colour.

EPILOG ORANGE

PANTONE PMS 137 C / U  
CMYK 0C, 50M, 100Y, 0K  
RAL-K7 1028 Melonengelb  
RGB 255, 153, 0  
WEB #FF9900

Primary colours:

Mandatory for a two-colour logo on white background.

EPILOG GRAY

PANTONE PMS Cool Gray 9 C / U  
CMYK 0C, 0M, 0Y, 50K  
RAL-K7 7004 Signalgrau  
RGB 153, 153, 153  
WEB #999999

Primary colours:

Mandatory for a single-colour logo on white background.

PANTONE PMS Process Black C / U  
CMYK 0C, 0M, 0Y, 100K  
RAL-K7 9004 Signalschwarz  
RGB 0, 0, 0  
WEB #000000

CMYK 0C, 0M, 0Y, 0K  
RAL-K7 90043 Signalweiß  
RGB 255, 255, 255  
WEB #FFFFFF

Secondary colours:

Mandatory for a two-colour logo in negative space on either a black or orange background.

PANTONE PMS Cool Gray 11 C / U  
CMYK 0C, 0M, 0Y, 65K  
RAL-K7 7005 Mausgrau  
RGB 102, 102, 102  
WEB #666666

PANTONE PMS Cool Gray 6 C / U  
CMYK 0C, 0M, 0Y, 30K  
RAL-K7 7035 Lichtgrau  
RGB 204, 204, 204  
WEB #CCCCCC

## Logo

### Minimum clear space

The minimum clear space is the space around the logo within which no other graphic element is permitted to be used.

Never use a smaller space around the logo than specified.

In visual terms, the logo must never compete with other graphic elements.

Therefore, the minimum space has been specified: (a) height, and (b) width.

Space (a) equals the length of the middle horizontal line in the letter "E" (see illustration on the left).

Space (b) equals the height of the logo (see image).

When the logo is framed, the minimum space around the frame is determined by the distance of the letter "E" from the edge of the frame (see illustration on the left).

## Logo

The minimum size of the Epilog logo

The minimum size in print

The minimum size should not be smaller than 18 mm in width (a).

The minimum size of the logo with the inscription should not be smaller than 25 mm in width (b).

The minimum size of the framed logo should not be smaller than 30 mm in width, with regard to the frame (c).

The minimum size in pixels

The minimum size of the logo should not be smaller than 75 pixels in width (d).

The minimum size of the logo with the inscription should not be smaller than 100 pixels in width (e).

The minimum size of the framed logo should not be smaller than 120 pixels in width, with regard to the frame (f).

The logo must always be large enough to be legible. By specifying the minimum size of the logo, Epilog ensures that even when the size is reduced the logo is always visible and legible.

The minimum size refers to the width of the inscription EPILOG together with the three dots; when the logo is framed, however, the minimum size refers to the frame width. Two minimum sizes are specified: for printing (in printed media) in mm, and for screen use (in electronic media) in pixels.

**Logo**

In primary colours

The logo is designed with two primary colours: Epilog Orange and Epilog Grey; and in a black and white version.

Please consult page 1 of the Style Guide.

A white background is the preferred option. A black or orange framed background is acceptable, but not recommended.

Always make sure that the Epilog logo is legible.

Basic black and white version

## Logo

Permitted use

Colour logo on white background

Colour logo on orange background

Colour logo on black background

Single-colour logo on white background

Single-colour logo on black background
